

Career Lottery

Home Essentials

Each player may only have one of each item listed below recorded in their inventory. Players cannot exceed the number of inventory spaces on their Character Profile. It is important to give thorough thought to which ones are filled by work-required items versus ones actually earning wealth points. Items may be sold back at half value to clear an inventory space.

Unlike other spaces that only permit one action per turn, players may buy as many items as they desire at once from here.

Luxury Items	Cost	Award
